**First-Quarter Business Commentary:**

- First-quarter results reflect the consolidation of all of SEI's banking business into the Private Banks segment. This consolidation has a positive effect on revenue growth rates and a negative effect on operating margins when compared to the Private Bank and Trust segment as reported in prior years.
- For the first time, year over year revenue comparisons reflect the consolidation of LSV in both reporting periods; resulting in more normal year over year revenue growth for the company.
- The company's percentage ownership in LSV remained at 43 percent. In the first-quarter 2007, the company recognized \$31.3 million as its portion of the earnings from LSV versus \$25.1 million in first-quarter 2006.
- All other major business segments reported double digit revenue gains versus year ago.
- The Investment Advisors, Institutional Investors, Investment Managers and LSV segments all realized double digit operating profit growth versus year ago levels.
- The tax rate for the first-quarter 2007 was just over 37%.
- Assets under management grew by \$8.5 billion during first-quarter 2007 to \$190.0 billion.
- In the first-quarter 2007, SEI purchased 743,400 shares of its common stock for \$45.3 million.
