Note 1. Summary of Significant Accounting Policies

Nature of Operations

SEI Investments Company (the Company), a Pennsylvania corporation, provides investment processing, fund processing, and investment management business outsourcing solutions to corporations, financial institutions, financial advisors, and ultra-high-net-worth families in the United States, Canada, the United Kingdom, continental Europe, and other various locations throughout the world. Investment processing solutions utilize the Company's proprietary software systems to track investment activities in multiple types of investment accounts, including personal trust, corporate trust, institutional trust, and non-trust investment accounts, thereby allowing banks and trust companies to outsource trust and investment related activities. Revenues from investment processing solutions are recognized in Information processing and software servicing fees on the accompanying Consolidated Statements of Operations, except for fees earned associated with trade execution services.

The fund processing solution offers a full range of administration and distribution support services to mutual funds, collective trust funds, single-manager hedge funds, funds of hedge funds, private equity funds and other types of investment funds. Administrative services include fund accounting, trustee and custodial support, legal support, transfer agency and shareholder servicing. Distribution support services range from market and industry insight and analysis to identifying distribution opportunities. Revenues from fund processing solutions are recognized in Asset management, administration and distribution fees on the accompanying Consolidated Statements of Operations.

Investment management programs consist of mutual funds, alternative investments and separate accounts. These include a series of money market, equity, fixed-income and alternative investment portfolios, primarily in the form of registered investment companies. The Company serves as the administrator and investment advisor for many of these products. Revenues from investment management programs are recognized in Asset management, administration and distribution fees on the accompanying Consolidated Statements of Operations.

Basis of Presentation

The accompanying Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Certain financial information and accompanying note disclosure normally included in the Company's Annual Report on Form 10-K has been condensed or omitted. The interim financial information is unaudited but reflects all adjustments (consisting of only normal recurring adjustments) which are, in the opinion of management, necessary for a fair statement of financial position of the Company as of September 30, 2011, the results of operations for the three and nine months ended September 30, 2011 and 2010, and cash flows for the nine month periods ended September 30, 2011 and 2010. These interim Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

There have been no significant changes in significant accounting policies during the nine months ended September 30, 2011 as compared to the significant accounting policies described in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Cash and Cash Equivalents

Cash and cash equivalents includes \$283,461 and \$383,946 at September 30, 2011 and December 31, 2010, respectively, primarily invested in SEI-sponsored open-ended money market mutual funds.

Restricted Cash

Restricted cash includes \$3,000 at September 30, 2011 and December 31, 2010 segregated for regulatory purposes related to trade-execution services conducted by SEI Investments (Europe) Limited. Restricted cash also includes \$1,000 at September 30, 2011 and December 31, 2010 segregated in special reserve accounts for the benefit of customers of the Company's broker-dealer subsidiary, SEI Investments Distribution Co. (SIDCO), in accordance with certain rules established by the Securities and Exchange Commission for broker-dealers.

Capitalized Software

The Company capitalized \$30,556 and \$28,097 of software development costs during the nine months ended September 30, 2011 and 2010, respectively. As of September 30, 2011, capitalized software placed into service included on the accompanying Consolidated Balance Sheet had a weighted average remaining life of approximately 10.7 years. Amortization expense related to capitalized software was \$19,299 and \$17,149 during the nine months ended September 30, 2011 and 2010, respectively.

Software development costs capitalized during the nine months ended September 30, 2011 and 2010 relates to the continued development of the Global Wealth Platform (GWP). As of September 30, 2011, the net book value of GWP was \$289,683 (net of accumulated amortization of \$81,025), including \$14,895 of capitalized software development costs in-progress associated with future releases. GWP has an estimated useful life of 15 years and a weighted average remaining life of 10.8 years. Amortization expense for GWP was \$18,873 and \$16,724 during the nine months ended September 30, 2011 and 2010, respectively.

Earnings per Share

The calculations of basic and diluted earnings per share for the three months ended September 30, 2011 and 2010 are:

	For the Three Months Ended September 30, 2011		
	Income (Numerator)	Shares (Denominator)	Per Share Amount
Basic earnings per common share	\$ 49,232	181,718	\$.27
Dilutive effect of stock options	0	862	
Diluted earnings per common share	\$ 49,232	182,580	\$.27

Diluted earnings per common share	\$ 169,287	190,694	\$.89

Employee stock options to purchase 13,273,000 and 16,096,000 shares of common stock, with an average exercise price of \$24.72 and \$23.47, were outstanding during the nine months ended September 30, 2011 and 2010, respectively, but not included in the computation of diluted earnings per common share because the effect on diluted earnings per common share would have been anti-dilutive.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued a final Accounting Standards Update which represents the converged guidance of the FASB and the International Accounting Standards Board on fair value measurement. The guidance clarifies how a principal market is determined, addresses the fair value measurement of instruments with offsetting market or counterparty credit risks, addresses the concept of valuation premise and highest and best use, extends the prohibition on blockage factors to all three levels of the fair value hierarchy and requires additional disclosures. The guidance is effective for interim and annual periods beginning after December 15, 2011 and is applied prospectively. The Company is currently evaluating the requirements of the guidance and has not yet determined its impact on the Company's consolidated financial statements.

In June 2011, the FASB issued a final Accounting Standards Update to amend the presentation of comprehensive income in financial statements. This new guidance allows companies the option to present other comprehensive income in either a single continuous statement or in two separate but consecutive statements. Under both alternatives, companies will be required to present each component of net income and comprehensive income. The guidance is effective for interim and annual periods beginning after December 15, 2011 and is applied retrospectively. The Company does not expect the adoption of the guidance to have any impact on its consolidated financial statements.

Statements of Cash Flows

For purposes of the Consolidated Statements of Cash Flows, the Company considers investment instruments purchased with an original maturity of three months or less to be cash equivalents.

The following table provides the details of the adjustments to reconcile net income to net cash provided by operating activities for the nine months ended September 30:

Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

Note 2. Investment in Unconsolidated Affiliate

The Company has an investment in the general partnership LSV Asset Management (LSV). LSV is a registered investment advisor that provides investment advisory services to institutions, including pension plans and investment companies. LSV is currently an investment sub-advisor for a small number of SEI-sponsored mutual funds. Currently, the Company's total partnership interest in LSV is approximately 41 percent. The Company accounts for its interest in LSV using the equity method. The Company's interest in the net assets of LSV is reflected in Investment in unconsolidated affiliate on the accompanying Consolidated Balance Sheets and its interest in the earnings of LSV is reflected in Equity in earnings of unconsolidated affiliate on the accompanying Consolidated Statements of Operations.

At September 30, 2011, the Company's total investment in LSV was \$67,994. The investment in LSV exceeded the underlying equity in the net assets of LSV by \$3,826, of which \$3,062 is considered goodwill embedded in the investment. The Company receives partnership distributions from LSV on a quarterly basis. The Company received partnership distribution payments from LSV for \$78,550 and \$67,508 in the nine months ended September 30, 2011 and 2010, respectively. The partnership distribution payment of \$21,242 received in the three months ended March 31, 2010 is reflected in LSV and LSV Employee Group cash balances, net on the accompanying Consolidated Statement of Cash Flows.

The Company's proportionate share in the earnings of LSV was \$23,908 and \$25,246 during the three months ended September 30, 2011 and 2010, respectively. During the nine months ended September 30, 2011 and 2010, the Company's proportionate share in the earnings of LSV was \$82,387 and \$72,839, respectively.

The following table contains the condensed statements of operations of LSV for the three months ended September 30, 2011 and 2010:

	Three Months Ended September 30,	
	2011	2010
Revenues	\$67,230	\$68,979
Net income	58,358	61,032

	2011	2010
Revenues	\$228,380	\$199,999
Net income	200,322	175,645

Guaranty Agreements

In 2006, LSV Employee Group purchased an eight percent interest in LSV from two existing partners. In order to finance a portion of the purchase price, LSV Employee Group obtained financing from Bank of America, N.A. (Bank of America) and certain other lenders in the form of a term loan pursuant to the terms of a Credit Agreement. The Company agreed to provide a Guaranty Agreement to the lenders of all obligations of LSV Employee Group under the Credit Agreement. In January 2011, LSV Employee Group and Bank of America agreed to amend the Credit Agreement and extend the maturity date of the loan from January 2011 to July 2012. The Company's obligations under the Guaranty Agreement remained in full force and effect with respect to the amended Credit Agreement. LSV Employee Group made the final principal payment in October 2011 and has no further obligation regarding the Credit Agreement. The principal amount and interest of the term loan were paid in quarterly installments. LSV Employee Group made principal payments of \$10,091 during 2011, including the final principal payment of \$1,298 in October 2011.

In April 2011, a group of existing employees of LSV agreed to purchase a partnership interest of an existing LSV employee for \$4,300 of which \$3,655 was financed through a new term loan with Bank of America. The group of existing LSV employees formed a new limited liability company, LSV Employee Group II, LLC (LSV Employee Group II). The Company provided an unsecured guaranty to the lenders of all the obligations of LSV Employee Group II. The lenders will have the right to seek payment from the Company in the event of a default by LSV Employee Group II. The term loan has a four year term and will be repaid from the quarterly distributions of LSV. LSV Employee Group II made principal payments of \$458 thus far during 2011. As of October 31, 2011, the remaining unpaid principal balance of the term loan was \$3,197.

The Company's direct interest in LSV is unchanged as a result of this transaction. The Company has determined that LSV Employee Group II is a variable interest entity (VIE); however, the Company is not considered the primary beneficiary because it does not have the power to direct the activities that most significantly impact the economic performance of LSV Employee Group II either directly or through any financial responsibility from the guaranty.

As of October 31, 2011, the Company, in its capacity as guarantor, currently has no obligation of payment relating to the term loan of LSV Employee Group II and, furthermore, fully expects that LSV Employee Group II will meet all of their future obligations regarding the term loan.

Note 3. Variable Interest Entities

The Company has created numerous investment products for its clients in various types of legal entity structures. The Company serves as the Manager, Administrator and Distributor for these investment products and may also serve as the Trustee for some of the investment products. Clients are the

equity investors and participate in proportion to their ownership percentage in the net income and net capital gains of the products, and, on liquidation, will participate in proportion to their ownership percentage in the remaining net assets of the products after satisfaction of outstanding liabilities. Some of the Company's investment products have been determined to be VIEs at inception.

The Company does not have a significant equity investment in any of the VIEs and does not have an obligation to enter into any guarantee agreements with the VIEs. The Company is not the primary beneficiary of the VIEs because the expected fees and the expected return on any investment into the VIE by the Company relative to the expected returns of the VIE to the equity investor holders does not approach 50 percent of the expected losses or gains of the VIEs. Therefore, the Company is not required to consolidate any investment products that are VIEs into its financial statements. The Company's variable interest in the VIEs, which consists of management fees and in some situations, seed capital, is not considered a significant variable interest.

The risks to the Company associated with its involvement with any of the investment products that are VIEs are limited to the cash flows received from the revenue generated for asset management, administration and distribution services and any equity investments in the VIEs. Both of these items are not significant. The Company has no other financial obligation to the VIEs.

Amounts relating to fees received from the VIEs included in Receivables and amounts relating to equity investments in the VIEs included in Investments Available for Sale on the Company's Consolidated Balance Sheets are not significant to the total assets of the Company.

Note 5. Fair Value Measurements

The fair value of the Company's financial assets and liabilities is determined in accordance with the fair value hierarchy. The fair value of the Company's financial assets, except for the fair value of senior notes issued by structured investment vehicles (SIVs), is determined using Level 1 or Level 2 inputs and consist mainly of investments in equity and fixed-income mutual funds that are quoted daily and Government National Mortgage Association (GNMA) and other U.S. government agency securities that are single issuer pools that are valued based on current market data for the specific issue owned or pools of similar securities. Level 3 financial assets consist of senior note obligations issued by SIVs. The Company did not have any Level 3 financial liabilities at September 30, 2011 or December 31, 2010. There were no transfers of financial assets between levels within the fair value hierarchy during the nine months ended September 30, 2011.

Valuation of SIV Securities

The underlying collateral of the SIV securities is mainly comprised of asset-backed securities and collateralized debt obligations. The Company utilizes the services of a third party independent firm to assist in determining the fair value of the SIV security owned. Given the lack of any reliable market data on the SIV security, the firm utilized a valuation model that employs a net asset approach which considers the value of the underlying collateral of the SIV security to determine its fair value.

Management evaluates the value received from the firm and considers other information, such as the existence of any current market activity, to determine the fair value of the SIV securities.

The model used by the independent valuation firm to determine the fair value of the SIV security attempts to value the underlying collateral of the SIV security through the use of industry accepted and proprietary valuation techniques and models. This approach combines advanced analytics with real-time market information that incorporate structural and fundamental analysis, collateral characteristics and recent market developments. Each security that makes up the underlying collateral is specifically identified by its CUSIP or ISIN number and is analyzed by using observable collateral characteristics and credit statistics in order to project future performance and expected cash flows for each individual security. The projected cash flows incorporate assumptions and expectations based upon the foregoing analysis of the collateral characteristics such as, but not limited to, default probabilities, recovery rates, prepayment speeds and loss severities. Expected future cash flows are discounted at an appropriate yield derived from the individual security, structural and collateral characteristics, trading levels and other available market data. Different modeling techniques and associated inputs and assumptions may be used to project future cash flows for each security depending upon the asset classification of that individual security (i.e. residential mortgage-backed security, commercial mortgage-backed security, collateralized debt obligations, etc.). The aggregate value of the discounted cash flows of the underlying collateral is compared to the total remaining par value of the collateral to determine the expected recovery price, or fair value, of the remaining note obligations. Other factors may be considered that are specific to the SIV security that may affect the fair value of the SIV security.

Management may also consider, when available, price quotes from brokers and dealers. If a price quote is available, management will compare this number to the fair value derived from the valuation model of the independent firm giving consideration to other market factors and risk premiums. Given the lack of any significant trading activity for the SIV security owned by the Company, management believes that market prices may not represent the implied fair value of the SIV security owned by the Company.

In the event a market transaction does exist for a SIV security, management evaluates the publicly available information surrounding the transaction in order to assess if the price used represents the fair value for the SIV security. In management's opinion, the current market for SIV securities does not represent an orderly and efficient market.

The fair value of certain financial assets and liabilities of the Company was determined using the following inputs:

Net unrealized holding gains at September 30, 2011 and December 31, 2010 were \$2,354 (net of income tax expense of \$1,383) and \$1,339 (net of income tax expense of \$784), respectively. These net unrealized gains are reported as a separate component of Accumulated other comprehensive income on the accompanying Consolidated Balance Sheets.

Gross realized gains and losses from available-for-sale securities during the nine months ended September 30, 2011 and 2010 were minimal. Gains and losses from available-for-sale securities are reflected in Net (loss) gain from investments on the accompanying Consolidated Statements of Operations.

The Company's debt securities classified as available-for-sale securities are issued by GNMA and are backed by the full faith and credit of the U.S. government. These securities were purchased to satisfy applicable regulatory requirements of SEI Private Trust Company (SPTC) and have maturity dates which range from 2020 to 2041.

Trading Securities

	<u>\$233,075</u>	<u>\$ 1,900</u>	<u>\$(130,381)</u>	<u>\$104,594</u>

The Company records all of its trading securities on the accompanying Consolidated Balance Sheets at fair value. Unrealized gains and losses from the change in fair value of these securities are recognized in Net (loss) gain from investments on the accompanying Consolidated Statements of Operations.

Through September 30, 2011, the Company recognized \$140,707 in cumulative losses from SIV securities and SIV-related issues. During the nine months ended September 30, 2011 and 2010, the Company recognized net gains from SIV securities of \$4,128 and \$29,990, respectively. Of the net gains recognized during the nine months ended September 30, 2011, gains of \$8,430 resulted from cash payments received from the SIV securities offset by losses of \$4,302 which resulted from a decrease in fair value at September 30, 2011. Of the gains recognized during the nine months ended September 30, 2010, \$19,390 resulted from cash payments received from the SIV securities and \$10,217 was from an increase in fair value at September 30, 2010. The net gains from the SIV securities are reflected in Net (loss) gain from investments on the accompanying Consolidated Statements of Operations.

In January 2011, the Company sold the senior note obligation originally issued by Stanfield Victoria. There was no gain or loss recognized by the Company from the sale of the note in 2011 as the fair value of the Stanfield Victoria note at December 31, 2010 was not different than the sale price received.

The Company has an investment related to the startup of mutual funds sponsored by LSV. These are U.S. dollar denominated funds that invest primarily in securities of Canadian, Australian and Japanese companies as well as various other global securities. The underlying securities held by the funds are translated into U.S. dollars within the funds. The net gains (losses) from the change in fair value of the funds during the three and nine months ended September 30, 2011 and 2010 were minimal.

Securities Owned

During 2011, the Company's broker-dealer subsidiary, SIDCO, made investments in U.S. government agency and commercial paper securities with maturity dates less than one year. These investments are reflected as Securities owned on the accompanying Consolidated Balance Sheets. Due to specialized accounting practices applicable to investments by broker-dealers, the securities are reported at fair value and changes in fair value are recorded in current period earnings. The securities had a fair value of \$20,032 at September 30, 2011. The changes in fair value recognized in the three and nine months ended September 30, 2011 were minimal.

Note 7. Lines of Credit

The Company has a five-year \$300,000 Credit Agreement (the Credit Facility) which expires in July 2012, at which time any aggregate principal amount of loans outstanding becomes payable in full. Any borrowings made under the Credit Facility will accrue interest at 0.450 percent above the London Interbank Offer Rate ("LIBOR"). There is also a commitment fee equal to 0.09 percent per annum on the daily unused portion of the facility. The aggregate amount of the Credit Facility may be increased by an additional \$100,000 under certain conditions set forth in the agreement. The Credit Facility, as amended, contains covenants that restrict the ability of the Company to engage in mergers, consolidations, asset sales, investments, transactions with affiliates, or to incur liens, as defined in the agreement. In the event of a default under the Credit Facility, the Company would also be restricted from paying dividends on, or repurchasing, its common stock without the approval of the lenders. None of the covenants of the Credit Facility negatively affect the Company's liquidity or capital resources. Both the interest rate and commitment fee prices may increase if the Company's leverage ratio reaches certain levels. Upon the occurrence of certain financial or economic events, significant corporate events, or certain other events of default constituting an

event of default under the Credit Facility, all loans outstanding may be declared immediately due and payable and all commitments under the Credit Facility may be terminated. As of September 30, 2011, the Company's ability to borrow from the Credit Facility is not limited by any covenant of the agreement.

The Company made principal payments of \$75,000 during the nine months ended September 30, 2011. As of September 30, 2011, the outstanding balance of the Credit Facility was \$20,000 and is included in Current portion of long-term debt on the accompanying Consolidated Balance Sheet. The Company was in compliance with all covenants of the Credit Facility at September 30, 2011.

The Company considers the book value of long-term debt related to the borrowings through the Credit Facility to be representative of its fair value.

The Company's Canadian subsidiary has a credit facility agreement (the Canadian Credit Facility) for the purpose of facilitating the settlement of mutual fund transactions. The Canadian Credit Facility has no stated expiration date. The amount of the facility is generally limited to \$2,000 Canadian dollars or the equivalent amount in U.S. dollars. The Canadian Credit Facility does not contain any covenants which restrict the liquidity or capital resources of the Company. The Company had no borrowings under the Canadian Credit Facility and was in compliance with all covenants during the three months ended September 30, 2011.

Note 8. Shareholders' Equity

Stock-Based Compensation

The Company currently has one active equity compensation plan, the 2007 Equity Compensation Plan (the 2007 Plan), which provides for the grant of incentive stock options, non-qualified stock options and stock appreciation rights with respect to up to 20 million shares of common stock of the Company, subject to adjustment for stock splits, reclassifications, mergers and other events. Permitted grantees under the 2007 Plan include employees, non-employee directors and consultants who perform services for the Company. The plan is administered by the Compensation Committee of the Board of Directors of the Company. The Company has only granted non-qualified stock options under the plan. All outstanding stock options have performance-based vesting provisions specific to each option grant that tie the vesting of the applicable stock options to the Company's financial performance. The Company's stock options vest at a rate of 50 percent when specified diluted earnings per share targets are achieved, and the remaining 50 percent when secondary, higher specified diluted earnings per share targets are achieved. The amount of stock-based compensation expense is based upon management's estimate of when the earnings per share targets may be achieved.

The Company discontinued any further grants under the Company's 1998 Equity Compensation Plan (the 1998 Plan) as a result of the approval of the 2007 Plan. No options are available for grant from this plan. Grants made from the 1998 Plan continue in effect under the terms of the grant.

The Company recognized stock-based compensation expense in its Consolidated Financial Statements in the three months ended September 30, 2011 and 2010, respectively, as follows:

	Three Months Ended September 30,	
	2011	2010
Stock-based compensation expense	\$ 3,424	\$ 3,468
Less: Deferred tax benefit	(1,289)	(1,313)
Stock-based compensation expense, net of tax	<u>\$ 2,135</u>	<u>\$ 2,155</u>

The Company recognized stock-based compensation expense in its Consolidated Financial Statements in the nine months ended September 30, 2011 and 2010, respectively, as follows:

	Nine Months Ended September 30,	
	2011	2010
Stock-based compensation expense	\$10,966	\$16,403
Less: Deferred tax benefit	(4,114)	(6,194)
Stock-based compensation expense, net of tax	<u>\$ 6,852</u>	<u>\$10,209</u>

As of September 30, 2011, there was approximately \$41,207 of unrecognized compensation cost remaining, adjusted for estimated forfeitures, related to unvested employee stock options that management expects will vest and is being amortized. The Company estimates that compensation cost will be recognized according to the following schedule:

Period	Stock-Based Compensation Expense
Remainder of 2011	\$ 3,664
2012	14,440
2013	12,588
2014	5,543
2015	3,279
2016	1,693
	<u>\$ 41,207</u>

During the nine months ended September 30, 2010, the Company revised its estimates made as of December 31, 2009 of when some vesting targets are expected to be achieved. These changes in management's estimates resulted in an increase of \$8,684 in stock-based compensation expense in the nine months ended September 30, 2010. Additionally, during the three months ended September 30, 2010, the Company reversed \$6,267 of previously-recognized stock-based compensation costs pertaining to option grants which management does not expect to vest. There was no change in management's estimate for the achievement of vesting targets during the nine months ended September 30, 2011.

The Company issues new common shares associated with the exercise of stock options. The total intrinsic value of options exercised during the nine months ended September 30, 2011 and 2010 was \$8,488 and \$5,361, respectively. The total options exercisable as of September 30, 2011 had no intrinsic value due to the fact that the weighted average exercise price exceeded the market value of the Company's common stock. The total intrinsic value for options exercisable is calculated as the difference between the market value of the Company's common stock as of September 30, 2011 and the exercise price of the shares. The market value of the Company's common stock as of September 30, 2011 was \$15.38 as reported by the Nasdaq Stock Market, LLC. The weighted average exercise price of the options exercisable as of September 30, 2011 was \$17.63. Total options that were outstanding as of September 30, 2011 was 26,034,000.

Common Stock Buyback

The Company's Board of Directors has authorized the repurchase of the Company's common stock on the open market or through private transactions. The Company purchased 7,884,000 shares at a total cost of \$158,682 during the nine months ended September 30, 2011. As of September 30, 2011, the Company has \$48,759 of authorization remaining for the purchase of common stock under the program.

The Company immediately retires its common stock when purchased. Upon retirement, the Company reduces Capital in excess of par value for the average capital per share outstanding and the remainder is charged against Retained earnings. If the Company reduces its Retained earnings to zero, any subsequent purchases of common stock will be charged entirely to Capital in excess of par value.

Cash Dividend

On May 25, 2011, the Board of Directors declared a cash dividend of \$.12 per share on the Company's common stock, which was paid on June 28, 2011, to shareholders of record on June 20, 2011. Cash dividends declared during the nine months ended September 30, 2011 and 2010 were \$22,041 and \$18,890, respectively.

Note 11. Income Taxes

The gross liability for unrecognized tax benefits at September 30, 2011 and December 31, 2010 was \$11,025 and \$5,723, respectively, exclusive of interest and penalties, of which \$9,826 and \$4,870 would affect the effective tax rate if the Company were to recognize the tax benefit.

The Company classifies interest and penalties on unrecognized tax benefits as income tax expense. As of September 30, 2011 and December 31, 2010, the combined amount of accrued interest and penalties related to tax positions taken on tax returns was \$701 and \$689, respectively.

	September 30, 2011	December 31, 2010
Gross liability for unrecognized tax benefits, exclusive of interest and penalties	\$ 11,025	\$ 5,723
Interest and penalties on unrecognized benefits	701	689
Total gross uncertain tax positions	<u>\$ 11,726</u>	<u>\$ 6,412</u>
Amount included in Current liabilities	\$ 554	\$ 767
Amount included in Other long-term liabilities	11,172	5,645
	<u>\$ 11,726</u>	<u>\$ 6,412</u>

The Company's effective tax rates were 33.8 percent and 37.8 percent for the three months ended September 30, 2011 and 2010, respectively. For the nine months ended September 30, 2011 and 2010, the Company's tax rates were 35.3 percent and 37.8 percent, respectively. In December 2010, the research and development tax credit was reinstated for calendar year 2010 and 2011. The 2011 tax rate reflects a benefit for research and development tax credit whereas the 2010 tax rate for the nine months ended September 30, 2010 did not reflect any benefit. During the three months ended September 30, 2011, the Company amended prior Federal income tax returns to

reflect the Domestic Production Activity Deduction. The effective rate in the three months ended September 30, 2011 reflects the benefit of this deduction for 2008 and 2009. The effective rate in the nine months ended September 30, 2011 reflects the benefit of this deduction for 2008 to 2011.

The Company files income tax returns in the United States on a consolidated basis and in many U.S. state and foreign jurisdictions. The Company is subject to examination of income tax returns by the Internal Revenue Service (IRS) and other domestic and foreign tax authorities. The Company is no longer subject to U.S. federal income tax examination for years before 2008 and is no longer subject to state, local or foreign income tax examinations by authorities for years before 2006.

The Company estimates it will recognize \$554 of unrecognized tax benefits within the next twelve months due to the expiration of the statute of limitations and resolution of income tax audits. These unrecognized tax benefits are related to tax positions taken on certain federal, state, and foreign tax returns. However, the timing of the resolution of income tax examinations is highly uncertain, and the amounts ultimately paid, if any, upon resolution of the issues raised by the taxing authorities may differ materially from the amounts accrued for each year. While it is reasonably possible that some issues under examination could be resolved in the next twelve months, based upon the current facts and circumstances, the Company cannot reasonably estimate the timing of such resolution or total range of potential changes as it relates to the current unrecognized tax benefits that are recorded as part of the Company's financial statements.

Note 12. Commitments and Contingencies

In the normal course of business, the Company is party to various claims and legal proceedings.

One of SEI's principal subsidiaries, SIDCO, has been named as a defendant in certain putative class action complaints (the Complaints) related to leveraged exchange traded funds (ETFs) advised by ProShares Advisors, LLC. The first complaint was filed on August 5, 2009. To date, the Complaints have been filed in the United States District Court for the Southern District of New York and in the United States District Court for the District of Maryland. The three complaints filed in the District of Maryland have been voluntarily dismissed by the plaintiffs. Two of them were subsequently re-filed in the Southern District of New York. Two of the complaints filed in the Southern District of New York have also been voluntarily dismissed by plaintiffs. The Complaints are purportedly made on behalf of all persons that purchased or otherwise acquired shares in various ProShares leveraged ETFs pursuant or traceable to allegedly false and misleading registration statements, prospectuses and statements of additional information. The Complaints name as defendants ProShares Advisors, LLC; ProShares Trust; ProShares Trust II, SIDCO, and various officers and trustees to ProShares Advisors, LLC; ProShares Trust and ProShares Trust II. The Complaints allege that SIDCO was the distributor and principal underwriter for the various ProShares leveraged ETFs that were distributed to authorized participants and ultimately shareholders. The complaints allege that the registration statements for the ProShares ETFs were materially false and misleading because they failed adequately to describe the nature and risks of the investments. The Complaints allege that SIDCO is liable for these purportedly material misstatements and omissions under Section 11 of the Securities Act of 1933. The Complaints seek unspecified compensatory and other damages, reasonable costs and other relief. Defendants have moved to consolidate the complaints, which motion has been granted. The Court appointed lead plaintiff on July 13, 2010, and an amended consolidated class action complaint was filed on September 25, 2010 asserting substantially the same claims. Defendants moved to dismiss on November 15, 2010. On December 16, 2010, lead plaintiff informed the Court and Defendants that lead plaintiff elected to file a second amended consolidated complaint, which was filed on January 31, 2011. Defendants filed a motion to dismiss the second complaint on March 17, 2011. While the outcome of this litigation is uncertain given its early phase, SEI believes that it has valid defenses to plaintiffs' claims and intends to defend the lawsuits vigorously.

SEI has been named in six lawsuits filed in Louisiana. Five lawsuits were filed in the 19th Judicial District Court for the Parish of East Baton Rouge, State of Louisiana. One of the five actions purports to set forth claims on behalf of a class and also names SPTC as a defendant. Two of the other actions also name SPTC as a defendant. All five actions name various defendants in addition to SEI, and, in all five actions, the plaintiffs purport to bring a cause of action under the Louisiana Securities Act. The putative class action originally included a claim against SEI and SPTC for an alleged violation of the Louisiana Unfair Trade Practices Act. Two of the other five actions include claims for violations of the Louisiana Racketeering Act and possibly conspiracy. In addition, another group of plaintiffs have filed a lawsuit in the 23rd Judicial District Court for the Parish of Ascension, State of Louisiana, against SEI and SPTC and other defendants asserting claims of negligence, breach of contract, breach of fiduciary duty, violations of the uniform fiduciaries law, negligent misrepresentation, detrimental reliance, violations of the Louisiana Securities Act and Louisiana Racketeering Act and conspiracy. The underlying allegations in all the actions are purportedly related to the role of SPTC in providing back-office services to Stanford Trust Company. The petitions allege that SEI and SPTC aided and abetted or otherwise participated in the sale of "certificates of deposit" issued by Stanford International Bank. Two of the five actions filed in East Baton Rouge have been removed to federal court, and plaintiffs' motions to remand are pending. These two cases have been transferred by the Judicial Panel on Multidistrict Litigation to United States District Court for the Northern District of Texas. On August 31, 2011, the United States District Court for the Northern District of Texas

issued an order and judgment that the causes of action alleged against SEI and SPTC in the two remanded actions were preempted by federal law and the Court dismissed these cases with prejudice. The Court of Appeals for the Fifth Circuit has granted an expedited appeal of the United States District Court's order and judgment. The case filed in Ascension was also removed to federal court and transferred by the Judicial Panel on Multidistrict Litigation to the Northern District of Texas. The schedule for responding to that complaint has not yet been established. The plaintiffs in the remaining two cases in East Baton Rouge have granted SEI an extension to respond to the filings. SEI and SPTC filed exceptions in the putative class action pending in East Baton Rouge, which the Court granted in part and dismissed the claims under the Louisiana Unfair Trade Practices Act and denied in part as to the other exceptions. SEI and SPTC filed an answer to the East Baton Rouge putative class action; plaintiffs filed a motion for class certification; and SEI and SPTC also filed a motion for summary judgment against certain named plaintiffs which the Court stated will not be set for hearing until after the hearing on the class certification motion. Following the decision by the United States District Court for the Northern District of Texas, the Court in the East Baton Rouge action issued an order staying the proceedings in the East Baton Rouge class action pending the outcome of the appeal of the order and judgment of the United States District Court for the Northern District of Texas. While the outcome of this litigation is uncertain given its early phase, SEI and SPTC believe that they have valid defenses to plaintiffs' claims and intend to defend the lawsuits vigorously.

Because of the uncertainty of the make-up of the classes, the specific theories of liability that may survive a motion to dismiss, the lack of discovery regarding damages, causation, mitigation and other aspects that may ultimately bear upon loss, the Company is not reasonably able to provide an estimate of loss, if any, with respect to the foregoing lawsuits.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

(In thousands, except asset balances and per share data)

This discussion reviews and analyzes the consolidated financial condition at September 30, 2011 and 2010, the consolidated results of operations for the three and nine months ended September 30, 2011 and 2010 and other key factors that may affect future performance. This discussion should be read in conjunction with the Consolidated Financial Statements and the Notes to the Consolidated Financial Statements.

Overview*Consolidated Summary*

We are a leading global provider of investment processing, fund processing, and investment management business outsourcing solutions that help corporations, financial institutions, financial advisors, and ultra-high-net-worth families create and manage wealth. Investment processing fees are earned as monthly fees for contracted services, including computer processing services, software licenses, and investment operations services, as well as transaction-based fees for providing securities valuation and trade-execution. Fund processing and investment management fees are earned as a percentage of average assets under management or administration. As of September 30, 2011, through our subsidiaries and partnerships in which we have a significant interest, we manage or administer \$394.9 billion in mutual fund and pooled or separately managed assets, including \$161.5 billion in assets under management and \$233.4 billion in client assets under administration.

Our Condensed Consolidated Statements of Operations for the three and nine months ended September 30, 2011 and 2010 were:

In our opinion, the following items had a significant impact on our financial results for the three and nine months ended September 30, 2011 and 2010:

- Revenue growth was primarily driven by higher Asset management, administration and distribution fees across the business segments from market appreciation. Despite the sharp decline in the capital markets during the third quarter 2011, our asset-based revenues increased due to the favorable capital market conditions that prevailed during the latter half of 2010 and through the first half of 2011. Revenue growth was also driven by new client asset funding, as well as asset funding from existing clients, for our hedge fund solutions and increased accounts for our separately managed accounts solutions in our Investment Managers segment.
- Revenue growth in our Private Banks segment was partially offset by lower investment processing fees from bank clients involved in mergers and acquisitions and price reductions provided to existing clients that recontracted for longer periods.
- The sharp decline in the capital markets during the third quarter 2011 negatively impacted LSV's revenues. Our proportionate share in the earnings of LSV in the three months ended September 30, 2011 was \$23.9 million as compared to \$25.2 million in the three months ended September 30, 2010, a decrease of five percent. The market appreciation in LSV's assets under management during the latter half of 2010 and through the first half of 2011; however, resulted in an overall increase in their revenues in the nine month comparable period. Our proportionate share in the earnings of LSV in the first nine months of 2011 was \$82.4 million, as compared to \$72.8 million in first nine months of 2010, an increase of 13 percent.
- We continued to invest in the Global Wealth Platform and its operational infrastructure. The portion of these costs which are not capitalized has increased, which partially contributed to the increase in Consulting, outsourcing and professional fees. During the first nine months of 2011, we capitalized \$30.6 million for significant enhancements and new functionality for the platform, as compared to \$28.1 million in the first nine months of 2010. We will continue to incur significant development costs for enhancements and upgrades to the Global Wealth Platform.
- Our operating expenses related to servicing new and existing Global Wealth Services clients implemented on the Global Wealth Platform as well as new clients of our hedge fund and separately managed accounts solutions increased during the first nine months of 2011. These increased operational costs are included in Compensation, benefits and other personnel, Consulting, outsourcing and professional fees, and Data processing and computer related expenses on the accompanying Consolidated Statements of Operations.
- We recognized losses of \$0.8 million and net gains of \$4.1 million from SIV securities in the three and nine months ended September 30, 2011, respectively, as compared to gains of \$8.7 million and \$30.0 million in the prior year periods. Of the net gains recognized during the nine months ended September 30, 2011, gains of \$8.4 million resulted from cash payments received from the SIV securities that had been previously written down offset by losses of \$4.3 million which resulted from a decrease in fair value at September 30, 2011.
- Stock-based compensation costs declined in 2011 and reflect the return to normal levels of expense amortization as compared to the level in 2010. Stock-based compensation costs in the three months ended September 30, 2010 reflect the reversal of \$6.3 million of previously-recognized stock-based compensation costs and the acceleration of approximately \$3.1 million of stock-based compensation due to a change in management's estimates of the attainment of certain performance vesting targets.
- Our effective tax rate for the first nine months of 2011 decreased to 35.3 percent as compared to 37.8 percent in the first nine months of 2010. Our tax rate in 2011 was favorably impacted by the reinstatement of the research and development tax credit which occurred in December 2010 and tax planning strategies implemented during 2011.
- We made principal payments of \$75.0 million and \$113.0 million during the first nine months of 2011 and 2010, respectively, to reduce the outstanding balance of our credit facility. As of September 30, 2011, the outstanding balance of the credit facility was \$20.0 million.
- We continued our stock repurchase program during 2011 and purchased 7,884,000 shares at an average price of approximately \$20.13 per share in the nine month period.

Asset Balances

This table presents assets of our clients, or of our clients' customers, for which we provide management or administrative services through our subsidiaries and partnerships in which we have a significant interest. These assets are not included in our balance sheets because we do not own them.

Total revenues	\$87,697	\$83,518	5%	\$262,279	\$260,730	1%

Revenues increased \$4.2 million, or five percent, in the three month period and \$1.5 million, or one percent, in the nine month period ended September 30, 2011 and were primarily affected by:

- Increased investment management fees from existing international clients due to higher assets under management from improved capital markets during the latter half of 2010 and through the first half of 2011 despite the sharp decline in the third quarter 2011, positive cash flows and favorable exchange rates;
- Increased net investment processing fees from new Global Wealth Services clients implemented onto the Global Wealth Platform;
- \$1.5 million one-time fee received in the third quarter 2011 from a Global Wealth Services client; and
- Increased trade execution fees due to higher trading volumes in the capital markets during the third quarter 2011; partially offset by
- Lower recurring investment processing fees mainly due to price reductions provided to existing clients that recontracted for longer periods and lower transaction volumes.

Operating margins decreased to 2 percent compared to 12 percent in the three month period and were 3 percent compared to 12 percent in the nine month period. Operating income decreased \$8.3 million, or 82 percent, in the three month period and \$23.3 million, or 75 percent, in the nine month period and was primarily affected by:

- Increased non-capitalized development costs, mainly consulting fees, and amortization expense relating to the Global Wealth Platform;
- Increased operational costs, mainly personnel and data processing and computer-related expenses, for servicing new and existing Global Wealth Services clients implemented onto the Global Wealth Platform; and
- Increased direct expenses associated with increased investment management fees from existing international clients; partially offset by
- An increase in revenues;
- Decreased one-time termination costs associated with a workforce reduction in first quarter 2010; and
- Decreased stock-based compensation costs due to the acceleration in 2010, net of the reversal of stock-based compensation costs in the third quarter 2010.

Investment Advisors

Revenues increased \$3.4 million, or eight percent, in the three month period and \$9.4 million, or seven percent, in the nine month period ended September 30, 2011 and were primarily affected by:

- Increased investment management fees from existing clients due to higher assets under management caused by improved capital markets during the latter half of 2010 and through the first half of 2011 despite the sharp decline in the third quarter 2011.

Operating margins increased to 40 percent, as compared to 39 percent in the three month period and were 43 percent, as compared to 39 percent, in the nine month period. Operating income increased by \$1.8 million, or 10 percent, in the three month period, and \$8.7 million, or 16 percent, in the nine month period and was primarily affected by:

- An increase in revenues;
- Decreased stock-based compensation costs due to the acceleration in 2010, net of the reversal of stock-based compensation costs in the third quarter 2010; and
- A charge of approximately \$1.0 million related to a processing error in third quarter 2010; partially offset by

- Increased non-capitalized development costs and amortization expense relating to the Global Wealth Platform as well as spending associated with building the necessary functionality and infrastructure for servicing financial institutions and investment advisors in the United States; and
- Increased compensation and other personnel expenses.

Institutional Investors

Revenues increased \$1.2 million, or two percent, in the three month period and \$7.3 million, or five percent, in the nine month period ended September 30, 2011 and were primarily affected by:

- Increased investment management fees from existing clients due to higher assets under management caused by improved capital markets during the latter half of 2010 and through the first half of 2011 despite the sharp decline in the third quarter 2011 as well as additional asset funding from existing clients; and
- Asset funding from new sales of our retirement and not-for-profit solutions; partially offset by
- Client losses.

Operating margins increased to 51 percent, as compared to 49 percent in the three month period and were 50 percent, as compared to 48 percent, in the nine month period. Operating income increased \$1.6 million, or six percent, in the three month period and \$6.3 million, or nine percent, in the nine month period and was primarily affected by:

- An increase in revenues;
- Decreased stock-based compensation costs due to the acceleration in 2010, net of the reversal of stock-based compensation costs in the third quarter 2010; and
- Decreased discretionary marketing and promotion expenses; partially offset by
- Increased compensation and other personnel expenses.

Investment Managers

Revenues increased \$5.0 million, or 12 percent, in the three month period and \$15.9 million, or 14 percent, in the nine month period ended September 30, 2011 and were primarily affected by:

- Cash flows from new clients of our hedge funds, separately managed accounts and collective trust fund solutions;
- Net positive cash flows from existing hedge fund clients mainly due to higher valuations from capital market increases despite the sharp decline in the third quarter 2011; and
- Increased accounts from our separately managed account program due to clients involved in mergers; partially offset by
- Client losses.

Operating margins decreased to 35 percent, as compared to 36 percent in the three month period and remained at 35 percent in the nine month period. Operating income increased \$1.4 million, or nine percent, in the three month period and \$5.1 million, or 12 percent, in the nine month period and was primarily affected by:

- An increase in revenues; and
- Decreased stock-based compensation costs due to the acceleration in 2010, net of the reversal of stock-based compensation costs in the third quarter 2010; partially offset by
- Increased personnel expenses, technology and other operational costs to service new clients of our hedge fund and separately managed accounts solutions.

Other

Other income and expense items on the accompanying Consolidated Statements of Operations consists of:

Net (loss) gain from investments

Net (loss) gain from investments consists of:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
(Losses) Gains from SIV securities	\$ (793)	\$8,728	\$4,127	\$29,990

Net (loss) gain from investments	<u><u>\$(1,418)</u></u>	<u><u>\$9,362</u></u>	<u><u>\$3,912</u></u>	<u><u>\$30,435</u></u>

During the nine months ended September 30, 2011, we recognized net gains of \$4.1 million from SIV securities, of which gains of \$8.4 million resulted from cash payments received from the SIV securities offset by losses of \$4.3 million which resulted from a decrease in fair value at September 30, 2011. In addition, we sold the senior note obligation originally issued by Stanfield Victoria. There was no gain or loss recognized from the sale of the note as the fair value of the Stanfield Victoria note at December 31, 2010 was not different than the sale price received.

During the nine months ended September 30, 2010, we recognized gains of \$30.0 million from SIV securities, of which \$19.4 million resulted from cash payments received from the SIV securities and \$10.2 million from an increase in fair value at September 30, 2010. In addition, the Company recognized a net gain of approximately \$0.4 million from the sales of two SIV securities during the nine months ended September 30, 2010.

Interest and dividend income

Interest and dividend income is earned based upon the amount of cash that is invested daily and the average yield earned on those balances.

Interest expense

Interest expense includes the interest charges and fees related to the borrowings under our credit facility.

Equity in the earnings of unconsolidated affiliate

Equity in the earnings of unconsolidated affiliate on the accompanying Consolidated Statement of Operations includes our less than 50 percent ownership in LSV. Our proportionate share in the earnings of LSV was \$23.9 million in the three months ended September 30, 2011 as compared to \$25.2 million in three months ended September 30, 2010, a decrease of five percent. Our proportionate share in the earnings of LSV was \$82.4 million in the nine months ended September 30, 2011 as compared to \$72.8 million in the nine months ended September 30, 2010, an increase of 13 percent. The decrease in the three month period was due to capital market depreciation during the quarter. The increase in the nine month period in 2011 was due to increased assets under management from existing clients because of improved capital markets relative to the comparable nine month period in 2010. LSV's assets under management decreased \$5.1 billion to \$49.4 billion at September 30, 2011 as compared to \$54.5 billion at September 30, 2010, a decrease of nine percent.

Noncontrolling interest

Noncontrolling interest includes the interest of other shareholders in a joint venture of the Company in an asset management firm located in South Korea.

Income Taxes

Our effective tax rates were 33.8 percent and 37.8 percent for the three months ended September 30, 2011 and 2010, respectively. For the nine months ended September 30, 2011 and 2010, our effective tax rates were 35.3 percent and 37.8 percent, respectively. Our tax rate in 2011 was favorably impacted by the reinstatement of the research and development tax credit which was written into law in December 2010. Additionally, we determined that SEI was eligible for the Domestic Production Activities Deduction. The effective rate in the three months ended September 30, 2011 reflects the benefit of this deduction for 2008 and 2009. The effective rate for the nine months ended September 30, 2011 reflects the benefit of this deduction for 2008 through 2011.

Stock-Based Compensation

During the nine months ended September 30, 2011 and 2010, we recognized approximately \$11.0 million and \$16.4 million, respectively, in stock-based compensation expense, a decrease of \$5.4 million. This decrease consisted of the following components:

	Change in Stock-Based Compensation Expense
Stock-based compensation cost recognized in 2011 for grants made in December 2010	\$ 4,050
Reversal of previously recognized stock-based compensation expense in third quarter 2010	6,161
Stock-based compensation cost associated with options that vested at December 31, 2010	(15,134)
Other items	(514)
	<u>\$ (5,437)</u>

Based upon our current view of how many options will vest and when they will vest, we estimate that stock-based compensation expense will be recognized according to the following schedule:

Period	Stock-Based Compensation Expense
Remainder of 2011	\$ 3,664
2012	14,440
2013	12,588
2014	5,543
2015	3,279
2016	1,693
	<u>\$ 41,207</u>

Fair Value Measurements

The fair value of our financial assets and liabilities is determined in accordance with the fair value hierarchy. The fair value of most of our financial assets are determined using Level 1 or Level 2 inputs and consist mainly of investments in equity or fixed-income mutual funds that are quoted daily and Government National Mortgage Association (GNMA) and other U.S. government agency securities that are single issuer pools that are valued based on current market data of similar assets. Our Level 3 financial assets consist of senior note obligations issued by SIVs (See Note 5 to the Notes to Consolidated Financial Statements).

Liquidity and Capital Resources

	For the Nine Months Ended September 30,	
	2011	2010
Net cash provided by operating activities	\$ 175,536	\$ 120,845
Net cash used in investing activities	(15,151)	(42,431)
Net cash used in financing activities	(227,812)	(217,513)
Net decrease in cash and cash equivalents	(67,427)	(139,099)
Cash and cash equivalents, beginning of period	496,292	590,877
Cash and cash equivalents, end of period	<u>\$ 428,865</u>	<u>\$ 451,778</u>

Cash requirements and liquidity needs are primarily funded through our cash flow from operations and our capacity for additional borrowing. At September 30, 2011, our unused sources of liquidity consisted of cash and cash equivalents and the amount available under our credit facility. During 2009, we borrowed \$254.0 million through our five-year, \$300.0 million credit facility and used the proceeds to purchase SIV securities from SEI-sponsored money market funds. Through September 30, 2011, we made principal payments of \$234.0 million, including \$75.0 million during 2011, to reduce the outstanding balance of our credit facility. As of September 30, 2011, the outstanding balance of the credit facility was \$20.0 million and has been classified as short-term debt due to the expiration date of the agreement in July 2012 (See Note 7 to the Consolidated Financial Statements).

Our cash and cash equivalents include accounts managed by our subsidiaries and minority-owned subsidiaries that are used in their operations or to cover specific business and regulatory requirements. The availability of this cash for other purposes beyond the operations of these subsidiaries may be limited. As of October 31, 2011, the amount of cash and cash equivalents considered free and immediately accessible for other general corporate purposes was \$321.2 million.

Our credit facility is an unsecured senior revolving line of credit with JPMorgan Chase Bank, N.A., individually and as agent and a syndicate of other lenders. The credit facility is scheduled to expire in July 2012. We have recently begun the process to enter into a new credit facility agreement. The availability of the credit facility is subject to the compliance with certain covenants set forth in the agreement. The credit facility contains covenants which restrict our ability to engage in mergers, consolidations, asset sales, investments, transactions with affiliates, or to incur liens, as defined in the agreement. In the event of a default under the credit facility, we would also be restricted from paying dividends on, or repurchasing, our common stock. Currently, our ability to borrow from the credit facility is not limited by any covenant of the agreement. Of all of the covenants, we believe satisfying the leverage ratio could be the most difficult in the future. The leverage ratio is calculated as consolidated indebtedness divided by earnings before interest, taxes, depreciation, amortization and other items as defined by the covenant during the last four quarters (EBITDA). We must maintain a ratio of consolidated indebtedness of not more than 1.75 times the amount of EBITDA until the expiration of the agreement. As of September 30, 2011, our leverage ratio is 0.06 times EBITDA. According to the terms of the covenant, we must include the outstanding debt of LSV Employee Group and LSV Employee Group II in the calculation of consolidated indebtedness (See Note 2 to the Consolidated Financial Statements). We do not anticipate that this covenant or any covenant of the credit facility will restrict our ability to utilize the credit facility.

Cash flows from operations increased \$54.7 million in the first nine months of 2011 compared to the first nine months of 2010 due to the partnership distribution payment received from LSV, non-cash adjustments for net realized gains from marketable securities in 2011 as opposed to 2010, and the net change in our working capital accounts.

Cash flows from investing activities increased \$27.3 million in the first nine months of 2011 compared to the first nine months of 2010 primarily due to the net reduction of \$37.1 million in our cash and cash equivalents during the first quarter of 2010 from the deconsolidation of the accounts of LSV. Net cash used in investing activities also includes:

- *Purchases, sales and maturities of marketable securities.* We had cash outflows of \$47.5 million for the purchase of marketable securities in the first nine months of 2011 as compared to \$29.1 million in the first nine months of 2010. Marketable securities purchased in 2011 consisted of investments in U.S. government agency and commercial paper securities with maturity dates less than one year by SIDCO,

additional GNMA securities to satisfy applicable regulatory requirements of SPTC and investments for the start-up of new investment products. Marketable securities purchased in 2010 consisted of investments for the start-up of new investment products and GNMA securities for SPTC regulatory requirements. We had cash inflows of \$76.2 million from sales and maturities of marketable securities, including principal prepayments received from our GNMA and SIV securities, in the first nine months of 2011 as compared to \$63.9 million in the first nine months of 2010. Marketable securities sold in 2011 and 2010 primarily includes the proceeds from the sales of SIV securities.

- *The capitalization of costs incurred in developing computer software.* We will continue the development of the Global Wealth Platform through a series of releases to expand the functionality of the platform. We capitalized \$30.6 million of software development costs in the first nine months of 2011 as compared to \$28.1 million in the first nine months of 2010. Amounts capitalized in 2011 and 2010 include costs for significant enhancements and upgrades to the platform.
- *Capital expenditures.* Our capital expenditures in the first nine months of 2011 and 2010 primarily include equipment for our data center operations.

Net cash used in financing activities includes:

- *Principal payments of our debt.* Principal payments in the first nine months of 2011 and 2010 include payments of \$75.0 million and \$113.0 million, respectively, to reduce the outstanding debt associated with our credit facility.
- *The repurchase of our common stock.* We spent approximately \$158.7 million during the first nine months of 2011 and \$85.3 million during the first nine months of 2010 for the repurchase of our common stock. As of October 31, 2011, we have approximately \$35.1 million of authorization remaining under the program.
- *Dividend payments.* Cash dividends paid were \$22.0 million or \$.12 per share in the first nine months of 2011 and \$36.0 million or \$.19 per share in the first nine months of 2010. The decrease in dividends paid in 2011 was due to the payment date of the December 2010 dividend occurring in the calendar year as compared to the payment date of the dividend declared in December 2009 which occurred in January 2010.

We believe our operating cash flow, existing cash and cash equivalents and available borrowing capacity should provide adequate funds for ongoing operations; continued investment in new products and equipment; our common stock repurchase program; principal payments on our debt; and future dividend payments.

Forward-Looking Information and Risk Factors

The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for forward-looking statements. Certain information contained in this discussion is or may be considered forward-looking. Forward-looking statements relate to future operations, strategies, financial results or other developments. Forward-looking statements are based upon estimates and assumptions that involve certain risks and uncertainties, many of which are beyond our control or are subject to change. Although we believe our assumptions are reasonable, they could be inaccurate. Our actual future revenues and income could differ materially from our expected results. We have no obligation to publicly update or revise any forward-looking statements.

Among the risks and uncertainties which may affect our future operations, strategies, financial results or other developments are those risks described in our latest Annual Report on Form 10-K in Part I, Item 1A. These risks include the following:

- changes in capital markets that may affect our revenues and earnings;
- product development risk;
- consolidation within our target markets, including consolidations between banks and other financial institutions;
- risk of failure by a third-party service provider;
- the performance of the funds we manage;
- the affect of extensive governmental regulation;
- systems and technology risks;
- data security risks;
- third party approval of our investment products with advisors affiliated with independent broker-dealers or other networks;
- operational risks associated with the processing of investment transactions;
- changes in, or interpretation of, accounting principles or tax rules and regulations;
- fluctuations in foreign currency exchange rates; and
- retention of senior management personnel.

Our principal, regulated wholly-owned subsidiaries are SEI Investments Distribution Co., or SIDCO, SEI Investments Management Corporation, or SIMC, SEI Private Trust Company, or SPTC, SEI Trust Company, or STC, and SEI Investments (Europe) Limited, or SIEL. SIDCO is a broker-dealer registered with the SEC under the Securities and Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority, Inc. (FINRA). SIMC is an investment advisor registered with the SEC under the Investment Advisers Act of 1940. SPTC is a limited purpose federal thrift chartered and regulated by the Office of the Comptroller of the Currency. STC is a Pennsylvania trust company, regulated by the Pennsylvania Department of Banking. SIEL is an investment manager and financial institution subject to regulation by the Financial Services Authority of the United Kingdom. In addition, various SEI subsidiaries are subject to the jurisdiction of regulatory authorities in Canada, the Republic of Ireland and other foreign countries. The Company has a minority ownership interest in LSV, which is also an investment advisor registered with the SEC. The Company is a savings association holding company regulated by the Board of Governors of the Federal Reserve System.

SIDCO and SIMC are subject to various federal and state laws and regulations and rules of self-regulatory organizations (such as FINRA) that grant supervisory agencies, including the SEC and FINRA, broad administrative powers. In the event of a failure to comply with these laws and regulations, the possible sanctions that may be imposed include the suspension of individual employees, limitations on the permissibility of SIDCO, SIMC, SEI, and our other subsidiaries to engage in business for specified periods of time, the revocation of applicable registration as a broker-dealer or investment advisor, as the case may be, censures, and fines. SPTC and STC are subject to laws and regulations imposed by federal and state banking authorities. In the event of a failure to comply with these laws and regulations, restrictions, including revocation of applicable banking charter, may be placed on the business of these companies and fines or other sanctions may be imposed. Additionally, the securities and banking laws applicable to us and our subsidiaries provide for certain private rights of action that could give rise to civil litigation. Any litigation could have significant financial and non-financial consequences including monetary judgments and the requirement to take action or limit activities that could ultimately affect our business.

Compliance with existing and future regulations and responding to and complying with recent regulatory activity affecting broker-dealers, investment advisors, investment companies and their service providers and financial institutions could have a significant impact on us. We periodically undergo regulatory examinations and respond

to regulatory inquiries, and document requests. Regulatory scrutiny has increased significantly over the last year or so, particularly in the case of FINRA, SEC and bank regulatory attention. As a result of these examinations, inquiries and requests, and as a result of increased civil litigation activity, we engage legal counsel, review our compliance procedures and business operations, and make changes as we deem necessary. These additional activities may result in increased expense or may reduce revenues.

We offer investment and banking products that also are subject to regulation by the federal and state securities and banking authorities, as well as foreign regulatory authorities, where applicable. Existing or future regulations that affect these products could lead to a reduction in sales of these products.

The Dodd-Frank Wall Street Reform and Consumer Protection Act signed into law in July 2010 makes extensive changes to the laws regulating financial services firms. Among other things, this Act abolished the Office of Thrift Supervision and transferred its functions to the other federal banking agencies. The legislation requires significant rule-making and mandates multiple studies, which could result in additional legislative or regulatory action. We are currently evaluating the impact the legislation will have on us and our subsidiaries and the products and services we provide to our clients.

Governmental scrutiny from regulators, legislative bodies and law enforcement agencies with respect to matters relating to compensation, our business practices, our past actions and other matters has increased dramatically in the past several years. Responding to these investigations and lawsuits, regardless of the ultimate outcome of the proceeding, is time consuming and expensive and can divert the time and effort of our senior management from our business. Penalties and fines sought by regulatory authorities have increased substantially over the last several years, and certain regulators have been more likely in recent years to commence enforcement actions or to advance or support legislation targeted at the financial services industry. Governmental scrutiny and legal and enforcement proceedings can also have a negative impact on our reputation and on the morale and performance of our employees, which could adversely affect our businesses and results of operations.

Among other things, as a result of regulators enforcing existing laws and regulations, we could be fined, prohibited from engaging in some of our business activities, subject to limitations or conditions on our business activities or subjected to new or substantially higher taxes or other governmental charges in connection with the conduct of our business or with respect to our employees.

Our bank clients are subject to supervision by federal and state banking authorities concerning the manner in which such clients purchase and receive our products and services. Our plan sponsor clients and our subsidiaries providing services to those clients are subject to supervision by the Department of Labor and compliance with employee benefit regulations. Investment advisor and broker-dealer clients are regulated by the SEC and state securities authorities. Existing or future regulations applicable to our clients may affect our clients' purchase of our products and services.

In addition, see the discussion of governmental regulations in Item 1A "Risk Factors" in our latest Annual Report on Form 10-K for a description of the risks that proposed regulatory changes may present for our business.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Information regarding our market risk exposures appears in Part II - Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2010. There have been no material changes in our market risk exposures from those disclosed in our Annual Report on Form 10-K for 2010.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report are effective in ensuring that information required to be disclosed by us in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management including its principal executive and principal financial officers, or persons performing

similar functions, as appropriate to allow timely decisions regarding required disclosure. A controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls systems are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

(b) Change in Internal Control over Financial Reporting

No change in our internal control over financial reporting occurred during the quarter ended September 30, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

One of SEI's principal subsidiaries, SIDCO, has been named as a defendant in certain putative class action complaints (the Complaints) related to leveraged exchange traded funds (ETFs) advised by ProShares Advisors, LLC. The first complaint was filed on August 5, 2009. To date, the Complaints have been filed in the United States District Court for the Southern District of New York and in the United States District Court for the District of Maryland. The three complaints filed in the District of Maryland have been voluntarily dismissed by the plaintiffs. Two of them were subsequently re-filed in the Southern District of New York. Two of the complaints filed in the Southern District of New York have also been voluntarily dismissed by plaintiffs. The Complaints are purportedly made on behalf of all persons that purchased or otherwise acquired shares in various ProShares leveraged ETFs pursuant or traceable to allegedly false and misleading registration statements, prospectuses and statements of additional information. The Complaints name as defendants ProShares Advisors, LLC; ProShares Trust; ProShares Trust II, SIDCO, and various officers and trustees to ProShares Advisors, LLC; ProShares Trust and ProShares Trust II. The Complaints allege that SIDCO was the distributor and principal underwriter for the various ProShares leveraged ETFs that were distributed to authorized participants and ultimately shareholders. The complaints allege that the registration statements for the ProShares ETFs were materially false and misleading because they failed adequately to describe the nature and risks of the investments. The Complaints allege that SIDCO is liable for these purportedly material misstatements and omissions under Section 11 of the Securities Act of 1933. The Complaints seek unspecified compensatory and other damages, reasonable costs and other relief. Defendants have moved to consolidate the complaints, which motion has been granted. The Court appointed lead plaintiff on July 13, 2010, and an amended consolidated class action complaint was filed on September 25, 2010 asserting substantially the same claims. Defendants moved to dismiss on November 15, 2010. On December 16, 2010, lead plaintiff informed the Court and Defendants that lead plaintiff elected to file a second amended consolidated complaint, which was filed on January 31, 2011. Defendants filed a motion to dismiss the second complaint on March 17, 2011. While the outcome of this litigation is uncertain given its early phase, SEI believes that it has valid defenses to plaintiffs' claims and intends to defend the lawsuits vigorously.

SEI has been named in six lawsuits filed in Louisiana. Five lawsuits were filed in the 19th Judicial District Court for the Parish of East Baton Rouge, State of Louisiana. One of the five actions purports to set forth claims on behalf of a class and also names SPTC as a defendant. Two of the other actions also name SPTC as a defendant. All five actions name various defendants in addition to SEI, and, in all five actions, the plaintiffs purport to bring a cause of action under the Louisiana Securities Act. The putative class action originally included a claim against SEI and SPTC for an alleged violation of the Louisiana Unfair Trade Practices Act. Two of the other five actions include claims for violations of the Louisiana Racketeering Act and possibly conspiracy. In addition, another group of plaintiffs have filed a lawsuit in the 23rd Judicial District Court for the Parish of Ascension, State of Louisiana, against SEI and SPTC and other defendants asserting claims of negligence, breach of contract, breach of fiduciary duty, violations of the uniform fiduciaries law, negligent misrepresentation, detrimental reliance, violations of the Louisiana Securities Act and Louisiana Racketeering Act and conspiracy. The underlying allegations in all the actions are purportedly related to the role of SPTC in providing back-office services to Stanford Trust Company. The petitions allege that SEI and SPTC aided and abetted or otherwise participated in the sale of "certificates of deposit" issued by Stanford International Bank. Two of the five actions filed in East Baton Rouge have been removed to federal court, and plaintiffs' motions to remand are pending. These two cases have been transferred by the Judicial Panel on Multidistrict Litigation to United States District Court for the Northern District of Texas. On August 31, 2011, the United States District Court for the Northern District of Texas issued an order and judgment that the causes of action alleged against SEI and SPTC in the two remanded actions were preempted by federal law and the Court dismissed these cases with prejudice. The Court of Appeals for the Fifth Circuit has granted an expedited appeal of the United States District Court's order and judgment. The case filed in Ascension was also removed to federal court and transferred by the Judicial Panel on Multidistrict Litigation to the Northern District of Texas. The schedule for responding to that complaint has not yet been established. The plaintiffs in the remaining two cases in East Baton Rouge have granted SEI an extension to respond to the filings. SEI and SPTC filed exceptions in the putative class action pending in East Baton Rouge, which the Court granted in part and dismissed the claims under the Louisiana Unfair Trade Practices Act and denied in part as to the other exceptions. SEI and SPTC filed an answer to the East Baton Rouge putative class action; plaintiffs filed a motion for class certification; and SEI and SPTC also filed a motion for summary judgment against certain named plaintiffs which the Court stated will not be set for hearing until after the hearing on the class certification motion. Following the decision by the United States District Court for the Northern District of Texas, the Court in the East Baton Rouge action issued an order staying the proceedings in the East Baton Rouge class action pending the outcome of the appeal of the order and judgment of the United States District Court for the Northern District of Texas. While the outcome of this litigation is uncertain given its early phase, SEI and SPTC believe that they have valid defenses to plaintiffs' claims and intend to defend the lawsuits vigorously.

Because of the uncertainty of the make-up of the classes, the specific theories of liability that may survive a motion to dismiss, the lack of discovery regarding damages, causation, mitigation and other aspects that may ultimately bear upon loss, we are not reasonably able to provide an estimate of loss, if any, with respect to the foregoing lawsuits.
